Software Engineering student with hands-on experience in full-stack web development using Angular, Express.js, and MySQL/MongoDB. Strong foundation in C, C++, Java, and JavaScript, with a focus on building scalable, clean, and user-centric applications. Experienced in REST APIs, SSR, and responsive UI development through real-world projects and internships.

Technical Skills

- **Languages: C, C++, Java, JavaScript**
- **Frontend: Angular, HTML5, CSS**
- **Backend: Node.js, Express.js**
- **Databases: MySQL, MongoDB**
- **Tools: Git, GitHub, Postman, Figma, VS Code , Render , Netlify**
- **Concepts: Full-Stack Development, RESTful APIs, Responsive Design, SSR**

Projects

- College Information Management System
  Angular, Express.js, MySQL
  - Developed a full-stack web application for managing students, courses, and records
  - Implemented CRUD operations with RESTful APIs
  - Designed responsive UI using Angular components
  - Integrated backend with MySQL for structured data handling
- Bakery Management System
  Angular, Express.js, MongoDB
  - Built an end-to-end system for managing products, orders, and customers
  - Implemented image upload with server-side storage
  - Created dashboards with order statistics and reports
  - Used MongoDB for flexible product and order data modeling
  - Live : : Link
- User Management System
  EJS, Express.js, MongoDB
  - Developed an SSR-based CRUD application
  - Implemented user creation, update, deletion, and listing
  - Used EJS templates for dynamic server-side rendering
  - Practiced MVC structure and MongoDB queries
  - Live : : Link

Work History

Software Development Intern

Prix Corporation, Baramati, India **June 2024 – July 2024**

- Developed and optimized web applications using Angular, Express.js, and MySQL.
- Collaborated with senior developers to design and integrate RESTful APIs.
- Built responsive UI components and improved performance across modules.
- Gained hands-on experience in debugging, code reviews, and version control (Git).
- Contributed to real-time data handling and dynamic routing in full-stack projects.

Education

- **Bachelor of Engineering (Computer Engineering) (Expected 2028)**
  ISBM College of Engineering, Pune, Maharashtra, India
- **Diploma in Information Technology (July 2025)**
  SVPM Institute of Technology & Engineering Malegaon (BK), Baramati, Pune, Maharashtra

Certificate

- C++ Certificate – VJTech Academy (2023-12): Proficiency in OOP concepts and best practices in C++.
- Java Certificate – VJTech Academy (2024-04): Skills in Java programming (basics to intermediate).
- Advanced Java Certificate – VJTech Academy (2024-06): Mastered JDBC, Servlets, JSP, and multithreading.
- DSA Certificate – VJTech Academy (2023-12): Covered data structures, complexities, and problem-solving techniques.
