Software Engineering student with hands-on experience in full-stack web development using Angular, Express.js, and MySQL/MongoDB. Strong foundation in C, C++, Java, and JavaScript, with a focus on building scalable, clean, and user-centric applications. Experienced in REST APIs, SSR, and responsive UI development through real-world projects and internships.

Technical Skills

- Languages: C, C++, Java, JavaScript
- Frontend: Angular, HTML5, CSS
- Backend: Node.js, Express.js
- Databases: MySQL, MongoDB
- Tools: Git, GitHub, Postman, Figma, VS Code, Render, Netlify
- Concepts: Data Structures & Algorithms, OOP, DBMS, Full-Stack Development, RESTful APIs, Responsive Design, SSR

Projects

Bakery Management System

Tech Stack: Angular, Express.js, MongoDB

- Developed a full-stack bakery management platform for product inventory, customer management, and order processing.
- Implemented image upload with server-side storage
- Created dashboards with order statistics and reports
- Used MongoDB for flexible product and order data modeling
- [Code](#) | [Live](#)

User Management System

Tech Stack: EJS, Express.js, MongoDB

- Developed an SSR-based CRUD application
- Implemented secure user authentication using JWT and bcrypt for password hashing and access control.
- Implemented user creation, update, deletion, and listing
- Used EJS templates for dynamic server-side rendering
- Practiced MVC structure and MongoDB queries
- [Code](#) | [Live](#)

College Information Management System

Tech Stack: Angular, Express.js, MySQL

- Developed a full-stack application for managing student records, courses, and academic information.
- Built RESTful APIs for CRUD operations and data management.
- Designed responsive Angular interfaces for administrators and staff.
- Integrated MySQL for efficient storage and retrieval of institutional data.
- [Code](#) |

Work History

Software Development Intern

Prix Corporation, Baramati, India

June 2024 – July 2024

- Developed and optimized web applications using Angular, Express.js, and MySQL.
- Designed and integrated RESTful APIs for efficient frontend-backend communication
- Built responsive UI components and improved performance across modules.
- Gained hands-on experience in debugging, code reviews, and version control (Git).
- Contributed to real-time data handling and dynamic routing in full-stack projects.

Education

- Bachelor of Engineering (Computer Engineering) (Expected 2028)
ISBM College of Engineering, Pune, Maharashtra, India
- Diploma in Information Technology (July 2025) | 86.34%
SVPM Institute of Technology & Engineering Malegaon (BK), Baramati, Pune, Maharashtra
